

Secure Fit® Technology Face Masks Chosen as a Winner in the 2015 Annual Excellence in Surgical Product Awards

DECEMBER 2015 – Crosstex/SPSmedical is pleased to announce that Secure Fit® Technology Face Masks were chosen as a winner in the 2015 Annual Excellence in Surgical Product (ESP) Awards.

Sponsored by *Surgical Products Magazine*, the ESP Awards competition attracts hundreds of entrants annually. The winners are chosen by *Surgical Products Magazine* readers.

“We are honored that Secure Fit® Technology Face Masks were selected as one of the top products by readers of *Surgical Products Magazine*,” said Ruth Arbuckle, Marketing Manager, Crosstex/SPSmedical. “This reinforces that when safety counts, customers choose Secure Fit® Technology Face Masks to provide the protection they need. Secure Fit® Technology Face Masks have been the perfect addition to our comprehensive line of infection prevention products designed to deliver innovative solutions to the healthcare community.”

Secure Fit® Technology Face Masks from Crosstex are proven to provide up to 3 times protection over other face masks*. Secure Fit® Technology Face Masks feature patent pending aluminum nose and chin pieces that can be adjusted to fit the shape and size of any face, while significantly reducing the gapping on the sides and bottom of the mask, decreasing exposure to airborne particulates and aerosols by more than 3 times that of a standard ear loop face mask. Secure Fit® Technology Face Masks are made in the USA in all 3 ASTM levels. *Data on file.
